

Partial Shading of a PV Module

Global I-V and P-V characteristic are displayed at the end of simulation (see Model Properties/Callback StopFcn)

```
function y = inc(v,i,vo,io,D)
m=0.6;
dv=v-vo;
di=i-io;
d=0.00004;
if dv==0
    if di==0
        m=D;
    else
        if di>0
            m=D-d;
        else
            m=D+d;
        end
    end
else
    if di/dv==-(i/v)
        m=D;
    else
        if di/dv> -(i/v)
            m=D-d;
        else
            m=D+d;
        end
    end
end
y=m;
end
```
